PMR 446

2-way radios which you can use to communicate for free, anywhere and anytime.

Private channels CTCSS/DCS: By using the same CTCSS/DCS codes you can talk to your friends or colleagues without getting disturbed by others. So there won´t be any interferences by communications of others.
This is especially useful in baby mode because your radio will only react to the baby monitor.

PTT button: Push to talk button on the radio or external. This button has to be pressed in order to speak to your partner.

Vox-Activation: With the Vox function it is possible to transmit without pressing the PTT button (handsfree function). The radio will be activated by detecting your speech automatically.

Scan: Automatic search run on all 8 channels to find other people who are communicating.

Dual Watch: The radio automatically switches between your current channel and your priority channel. If it detects an active communication on the priority channel it will stay on this channel otherwise it will switch back to the current channel.

Call: Transmission of a tone which is received by others. Depending on the radio there are several tones similar to the ring tones on your mobile phone.

Monitor: This function disables the noise squelch temporarily, you can use it to hear very faint signals. But you will also hear the noise on the channel.

Keylock: This will protect you against unintended changes of your settings.

Battery indicator: Shows the approximate charging status of the batteries.

Baby monitoring: A function which helps you to observe babys, childs or sick people.

Ranges of walkie-talkies (PMR 446)

Vacant land, over water, etc. at a clear visual contact	up to 10 km and more
Slightly elevated, in forests, etc.	up to 5 km
In lightly built-up terrain, between vehicles and motorcycles	up to 2 km
Within towns, in cities, etc. (depending on the development)	up to 1.5 km
Within very developed cities or if the antenna is covered, i.e. in a jacket pocket	up to 800 m
Within steel concrete buildings	up to 400 m

Up to 10 km range, 8 channels, 500 mW

► possible range ...

PMR 446 2-Way Radio

> Tectalk Easy

A small 2-way radio easy to operate at a very good price/efficiency ratio.
The two exchangeable front panels provide variety.

The switchable output power level provide a low power consumption. The call signaling and scanning function round out the control comfort.

- ✔ Exchangeable front panel (silver/black)
- ✔ Switchable power
- ✔ Scan function

Tectalk easy pair:
2 devices, 4 front panels
2 belt clips

► Ord.-No.: 29680

PMR 446 2-Way Radio

> Tectalk Fun

These radios are characterised by easy of use, good handling due to rubberized outer casing ring and convenient features, which are attractive for the user, who wants to establish a conver-sation from A to B without bells and whistles.

Applications: These radios are used anywhere, where staying in contact gives a good feeling.

With its convenient lanyards the radios can be worn like a necklace or tied to a bag or belt.

- ✔ Free communication in almost entire Europe

PMR 446 2-Way Radio

> Tectalk FM+

FM radio and walkie-talkie in one. A small appliance with a great variety of functions.
The 38 encoded tones per channel in conjunction with the voice encoding function (scrambler) provide completely undisturbed conversation. The 3 step vox control for „free-hands" conversations and for baby monitoring, the stop watch, the automatic power saving mode, the 10 adjustable call tones and the scanning function round out the comfort.

- ✔ The surface is rubber coated
- ✔ 38 subcodes (CTCSS) for undisturbed conversations
- ✔ Hands free function (Vox) /baby monitoring
- ✔ Scrambler function
- ✔ Stop watch
- ✔ Power save function
- ✔ Callfunction (10 tones)
- ✔ Channel search function

► Ord.-No.: 29735

Tectalk FM+ pair:
2 devices, 2 headsets,
2 Li-Ionen rech. batteries, duo desktop charger, 2 battery lid for 3 x AAA batteries
► Ord.-No.: 29735

Up to 10 km range, 8 channels, 500 mW

PMR 446 2-Way Radio

> Tectalk Action Pro

The Tectalk Action Pro's sophisticated technology comes in an ultra thin alu/metal casing. This appeals to the semi-professional user as well as the demanding private user. The integrated intercom function rounds off the comfort for bikers.

Channel encoding and scrambler provide undisturbed conversation and the convenient hands-free function allows radio contacts without pressing the PTT button.

The first-class transmission quality of the Tectalk Action Pro is due to its audio compander and it comes with a flash light as a little bonus.

The included intelligent charging cradle allows fast charging and ensures trickle charge of the built-in battery.

- ✔ 8 channels
- ✔ 500 mW output power
- ✔ Aluminium case - ultra slim
- ✔ 38 CTCSS tones
- ✔ Voice control (Vox, 2 levels)
- ✔ Audio compander for better transmission quality
- ✔ Dual Watch
- ✔ Roger Beep on/off
- ✔ Keytone on/off
- ✔ 3 Call melodies
- ✔ Audio compander
- ✔ Intelligent desk charger
- ✔ Built-in lithium ion battery, 780 mAh
- ✔ Lamp
- ✔ Room monitoring
- ✔ Scrambler
- ✔ Intercom function (with optional accessory)
- ✔ Channel scan
- ✔ Comes with desk charger and AC adapter

► possible range ...

Scanner

With Albrecht scanners and scanner radios you close to the action. Since the release of scanners, Albrecht has built up a wide selection of models, satisfying beginners as well as professionals. Our policy: we want to offer you high-value scanners at affordable low prices, perfect engineering and good quality guaranteed!

Although the use of scanners has been liberated in numerous European countries, operators of scanners have to pay attention to the considerable differences in national jurisdiction that still prevail.

410	-	425	Mobile radio (trunked radio)
430	-	440	Ham Radio 70 cm Band
433.075	-	434.775	Low power devices (LPD)
440	-	470	Mobile radio 70 cm Band (commercial radio, railway radio, Pager)
446.0	-	446.1	Private mobile radio (PMR 446)
470	-	790	UHF-TV Band IV and V
890	-	960	Public Mobile Radio GSM
1240	-	1300	Ham Radio 23 cm Band

Please note that in Germany it is not allowed to listen on every mentioned frequency band.

> ALBRECHT AE 30 H

A handheld scanner with 200 channels, pocket size, especially for air band and FM radio. The switchable bands allow easy frequency change in European countries. Furthermore, this scanner disposes of 3 priority channels (1 channel/band), 3 preprogrammed search bands, delay function 0 - 5 sec., lock-out function max. 40 frequencies, key lock, illuminated LC-display indicating channel, frequency and function, 400 mW audio output. Connections for antenna (BNC), ear plugs and external loudspeaker. Supplied with: rubber antenna and belt clip.

► Ord.-No.: 27030

> ALBRECHT AE 69-2H

A 80 channel scanner, compact design, only 165 g, with 3 band groups, non-volatile memory for settings (EEPROM), hyper search with 180 steps/sec., priority channel, delay function 2 sec., channel skip, illuminated LC-display. Socket for antenna (BNC), earplug/loudspeaker.
New: now with DC-/charging socket.
Supplied with rubber antenna and belt lip.

► Ord.-No.: 27069

NEW!

> ALBRECHT AE 82 H/BT

This new ALBRECHT radio scanner works on the 4 m and 2 m bands (AM, FM, WFM). It features 200 memory locations: 10 memory banks with 20 memory locations each and it ensures with its control knob fast menu navigation.
Further features: steps: 5/6.25/ 8.33 (aircraft radio)/10/12.5/15/20/25/30/50/100/500 kHz and auto, key lock, channel/frequency scan, dual channel monitoring, input reducer against overmodulation, selectable scan delay, beep tone on/off, frequency offset (delta) (5/10/15 kHz), display backlight, operation with 4 x AAA batteries/rechargeable batteries, auto energy saving mode

► AE 82 H: Ord.-No.: 27082

AE 82 H-BT: Bluetooth
For wireless reception in connection with Bluetooth headsets.

► AE 82 H/BT: Ord.-No.: 27083

NEW!

> ALBRECHT AE 86 H

- **CB Radio/10 m Band AM/FM**
- **4 m/2 m Band ► Airband**
- **FM Radio ► 200 Memories**

This new ALBRECHT radio scanner works on the 4 m, 2 m and 10 m (AM/FM) bands. It features individual band selection (German and international bands), 200 memory locations, priority channels, selectable scan delay, frequency offset CB and PMR, memory scan 25 channels/sec., frequency scan 25 steps/sec., auto battery saving mode, combi jack for charging and external operation (also 12V) and lots more. In the aircraft radio range the frequency steps is selectable between 5 kHz and 8.33 kHz.

- Frequency range: 25 - 174 MHz (25-30/66-87,5/87,5-108/108-136/144-174 MHz)
- Mode: AM, FM, WFM
- Step: 5/8.33 (airband only)/10/12.5/15/20/25/50/100 kHz and auto
- German and international band plan
- Individual band selection ► 200 memories
- Key lock ► Backlighting ► Scan/Search
- Priority channels
- Frequency offset CB and commercial radio
- Scan delay timer setting ► Beep tone on/off
- Operation with 3 x AA (rechargeable) batteries
- Combined charge and supply socket for ext. power supply or cigarette lighter cable
- Automatic battery save mode
- BNC connector for antenna
- Socket for headphones, 3,5 mm
- Dimensions: H: 11 x W: 6 x D: 3 cm

► Ord.-No.: 27086

Handheld scanner

> ALBRECHT AE 72 H

With its 12 frequency ranges and 10 preprogrammed search bands this comfortable handscanner offers everything that might be required by an experienced user. Frequency range: 25 - 512 MHz. In the airband area the frequency steps are adjustable from 12,5 kHz to 8,33 kHz. The extremely quick scan (memory scan 50 channels/sec., frequency search 60 steps/sec.) and the unique feature "hyper search" with 180 steps/sec. allow you to be the first to get informed about news. Frequencies can be stored in 100 memory locations in 10 memory banks. Of course all usual features are available as well, such as battery indicator, key lock, delay function, connections for antenna and much more.

Supplied with: battery and wall charger.

► Ord.-No.: 27072

> ALBRECHT AE 92 H

Likely the AE 72 H, this handheldscanner also disposes of 10 preprogrammed search bands and even 13 frequency ranges. Frequency range: 25 - 960 MHz. In the airband area the frequency steps are adjustable from 12,5 kHz to 8,33 kHz. The quick scan (50 channels/sec., frequency search 60 steps/sec.) and hyper search with 180 steps/sec. make search of information a pleasure. Frequencies can be memorized in 200 memory locations and of course, this scanner as well disposes of all usual features, such as battery indicator, key lock, delay function, connections for antenna and much more.

Supplied with: battery/wall charger.

► Ord.-No.: 27092

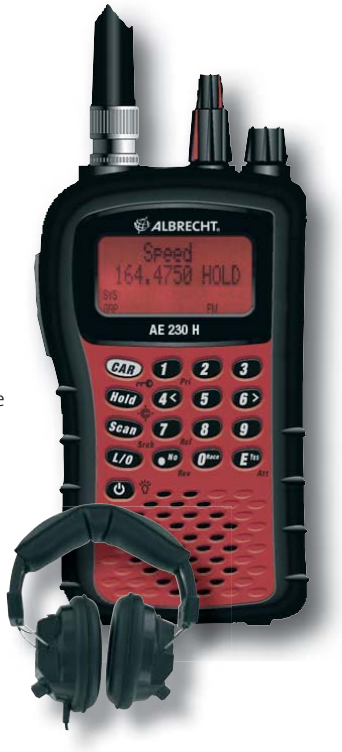
Racingscanner

> ALBRECHT AE 230 H

- **Racing frequencies**
- **Airband frequencies**
- **Voice radio frequencies (25 - 1300 MHz)**
- **Racing frequencies preprogrammed**
- **Max. 2500 assigned memory locations**
- **Close Call function**
- **Internet update available**



Main functions:

- 18 (19) Frequency ranges include: VHF-low: 25 - 87.3 MHz Airband 108 – 137 MHz, VHF-high: 137 – 174 MHz UHF: 400 - 512 MHz, 806-960 MHz, 1240-1300 MHz
- Close Call ™ nearby radio transmission search & capture up to 960 MHz
- 18 (19) Frequency ranges
- 50 CTCSS codes detection " 104 DCS Codes detection
- Memory scan 100 channels/sec. (Scan)
- Frequency scan up to 300 steps/sec. (Search)
- Up to 2500 dynamically assigned memory locations for conventional radio and racing systems
- Up to 200 dynamically programmable systems,
- Up to 20 groups per conventional system
- Airband steps 8.33 and 12.5 kHz selectable
- Frequency steps: 5/6.25/7.5/10/12.5/15/20/25/50/100 kHz
- 200 search and Close-Call lockout memory locations
- 10 user programmable search bands
- 1 Service search range (factory preprogrammed for air band)
- Scanning delay: 0- 5 sec.
- Illuminated alphanumerical LC Display
- Battery warning (+ acoustical warning)
- Non-volatile memory for settings (EEPROM)
- Key lock
- Connectors for: Headphone (8-64 Ohms) Power supply/Wall charger 230 V AC to 6 V DC, 500 mA, Antenna (BNC), PC & Cloning cable (4 pin mini)
- Internal power supply: 2 x AA rechargeable batteries or Alkaline batteries
- Dimensions: L: 68 mm x H: 115 mm x D: 31,5 mm
- Weight: 180 g

Supplied with:

AE 230 H incl. headphone, 2 rubber antennas (different frequency ranges), belt clip, 2 rechargeable batteries (2 x AA NiMH 1800 mAh), wall charger/power adaptor 230 V AC carrying strip, RS 232 connecting cable for PC programming

▶ Ord.-No.: 27230

Optional accessories:

ARC230 - programming software for the AE 230 for easy programming and controlling of the scanner (english user instructions).

▶ Ord.-No.: 27235

> Aircontrol M8/M9

Low cost handheld multi band receiver with modern features such as power control LED and volume-/squelch-control, terminals for earphone/ external speaker and power supply (6 V).

Specifications:

- Frequency ranges: 26 - 28 MHz 54 - 108 MHz 108 - 179 MHz
- Teleskopic antenna
- Squelch controller
- Connection earphone 3,5 mm e.g. OH-2 (Ord.-No.: 71450) and externally speaker
- Current supply: 4 x batteries AA and 6 V DC power supply (e.g. Ord.-No.: 7360)
- Dimensions (M8): 88 x 210 x 48 mm
- Dimensions (M9): 70 x 160 x 55 mm
- Weight (M8): 376 g (without batteries)
- Weight (M9): 230 g (without batteries)
- M9: Incl. 2 Front screens

▶ **Aircontrol M8** Ord.-No.: 27040

▶ **Aircontrol M9** Ord.-No.: 27042

Aircontrol M9

Aircontrol M8

Adapter for Handheld Scanner

Switchable 12 Volt adapter
for handheld scanner:
AE 69-2H, AE 72, AE 92, AE 230

► Ord.-No.: 73730

Flexible earphone

OH-2
Flexible, dynamic mono earphone with 3,5 mm connector for easy fixing on ear.

► Ord.-No.: 71450

Wall adapter for Handheld Scanner

Wall adapter with polatity switch for use with handheld scanner:

AE 69 H, AE 72 H, AE 92 H, AE 230 H
AE 55 H, AE 65 H, AE 67 H, AE 105 H,
AE 600 H

► Ord.-No.: 73671

Universal mobile holder

Universal mobil holder for use with handheld scanner and transceiver. Easy mounting on a car´s vent grille.

► Ord.-No.: 75205

Window clip mount

Window clip mount for use with antennas with BNC connector. Comes with 2,5 m RG 174/U coaxial cable and mounted BNC plug. Optimum suitable for Ham radio, scanner and CB-transceiver.

► Ord.-No.: 6676

Mini mag mount BNC

Very strong mini magnet mount (Ø 35 mm). With BNC female mount for rubber and short telescopic antennas. Comes with 2,4 m low loss RG 174 cable with mounted BNC male connector.

► Ord.-No.: 6677

Mag mount antenna

Miniscan
Minimagnet antenna mount for scanner, Ham radio. Comes with 2,7 m RG 174 cable with BNC plug.

Frequency range:
0,5 - 2060 MHz (RX),
145 - 435 MHz (TX)
Power rating: max 40/25 W
Length: 32 cm
Connector: BNC

► Ord.-No.: 6158

Magnet and vacuum mounting

AE Handscan

Telescopic scanner antenna with very good receiving capability which can be used as a receiving antenna, as well as amateur (2 m/70 cm) band transmitting antenna.

Frequency range:
25 - 1300 MHz
Length: 66 cm
Connector: BNC

► Ord.-No.: 6157

AE Maxiscan

Flexible wideband scanner antenna with very good receiving results in the 4 m and 2 m band. With BNC connector.

Frequency range: 25 - 1300 MHz
Length: 32 cm

► Ord.-No.: 6156

Sky Scan Mag 1300

Mobil magnet scanner antenna for 25 - 1300 MHz. Length about 60 cm. Comes with cable and BNC connector.

► Ord.-No.: 61680

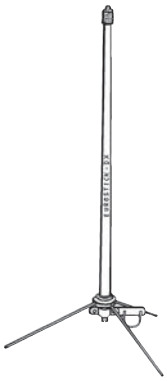
Scanner Accessories

Multiscan DX

The ideal space-saving scanner antenna that can be installed in any place such as attic, balcony etc. Comes with mounting set and PL/SO-239 terminal.

Frequency range: 60 - 525 MHz

► Ord.-No.: 6167

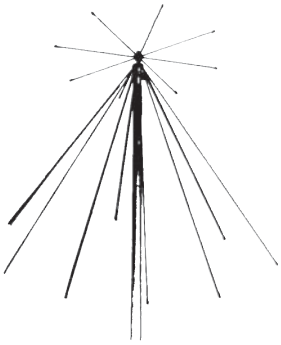


Eurostick DX

Wide band scanner antenna with 3 radials. Can be installed in any place such as attic, balcony etc. Comes with mounting set and PL/SO 239 terminal.

Frequency range: 25 - 2060 MHz

► Ord.-No.: 6164



Sky Band

A discone scanner antenna which can be used as a receiving antenna as well as amateur band transmitting antenna. The radiators are made of stainless. For mounting mast of max. 35 mm diameter.

► Ord.-Nr.: 6161

AE Desktop 1300

Baseantenna for 25 - 1300 MHz. Very compact so ideal for home or balcony use. Length about 1,1 m radials 8 x 20 cm. Comes with cable and BNC plug.

► Ord.-Nr.: 61690

Allband

High performance discone antenna which can be used as a receiving antenna as well as for transmission use on several ham radio frequencies. Made of stainless steel, chromed brass and eloxed aluminium. Easy to install; comes with So-239 connector.

Frequency range:	RX 25 - 1300 MHz TX 49 - 51, 120 - 180 MHz, 215 - 300 MHz (UHF)
Power rating:	200 W UHF, 300 W (VHF)
Length:	170 cm
Connection:	SO 239

► Ord.-No.: 61700

This antenna is suitable to transmit and receive on all stated frequencies. Suitable for all scanners and radios.

CB-Radio

On the road again...
Do you travel across Europe? On the road? You want to communicate with others?
You want to get the latest news about the road-condition by other CB users?

Albrecht - Leading in new ideas:

Albrecht has consequently applied the European R&TTE directive and it's possibilities, which has replaced the former national approval mark systems by the European CE marking system. All Albrecht Multi-Standard CB radios have a country switch system and can be used in most European countries in (minimum) one of the 3 or more available switch positions: It depends on the member state's frequency application, which of the country switch position(s) You may use in the region where You are: 40 CH FM everywhere and in some countries, which do not yet allow AM or SSB, 40 FM/40 AM/40 SSB in nearly all countries (the EN 300 433 Standard) and 80/12 (covering the additional German channels 41 to 80 inside of Germany except base station use in defined border regions).

My hobby CB-Radio
some Restrictions apply on use of the 80 German channels: channel numbers 41 to 80 may unfortunately not be used everywhere: in the border areas of the neighbouring countries, apart from the Czech Republic: Base stations are not allowed to transmit in border regions on these channels, or You need a special licence of the German authority (BNetzA).

Using your radio set in other countries
Even with the common CE marking, there are still some special national requirements in a few countries. Manufacturers have been obliged to inform users clearly by statements on the gift box and in the user manual about regional restrictions to use CB radio. Albrecht has issued a unique "Radio Passport" which will help You to provide always the latest relevant information with your CB radio. The „ Radio Passport" can be downloaded at any time from the Albrecht homepage as a real help in police controls to show that Your radio is legal. Users are responsible to have an official licence, where necessary (see country list in the user manuals) and to use only the allowed channel combinations in multi-standard radios.

New CB regulation:
During 2011, we expect that europe-wide common new CB regulations will come into force. The new EU standard will allow FM (4 Watts), AM (4 Watts) and SSB (12 Watts) as well in all EU member states and most CEPT countries in future.
All Albrecht CB radios are prepared to meet the new standard's higher output power levels and the radios can be switched to the new limits as soon as they will be published.
As long as the new regulations will not be in force, we have following country list for CB:

80 FM channels: D, CZ (FM) SK
(FM and channels 1-40 and 70-80)

40 FM/40 AM channels: B, BG, CH, D, E, F, FIN, FL, I, IRL, MC, NL, EST, LV, PL, P, RO, RSM.

40 FM: all EU-countries and CH, FL, N, IS
(except Austria)

40 channels FM (4 W) without county switch:
present Austria Standard
In Austria it is not allowed to use any radio with country switches. We offer special 40 channel FM radio versions for Austria on request.

CB-Radio basestation

> ALBRECHT AE 8090

The AE 8090 can be used in the following countries:
- 80 FM channels: D (AM and FM), CZ, SK (only FM)
- 40 FM/40 AM channels: B, BG, CH, D, E, EST, F, FIN, FL, GR, I, IRL, NL, LV, PL, P, RO, RSM
- 40 FM: All EU countries and CH, FL, N, IS (except A)

High quality innovative CB-Radio basestation for all EU countries, programmable to channel systems (80 FM/40 AM, 40 FM/40 AM, 40 FM channels). The large LC display shows frequency and channel numbers, status symbols and the analogue values like S-units, power, modulation and SWR can be measured by sensitive moving-coil instruments.

▶ **AE 8090** Ord.-No.: 12890

Specifications
- Separate on/off switch, volume control
- Audio filter ▸ Squelch control
- RF/ Mic-gain ▸ SWR meter and AM/FM switch
- 5 memory channels ▸ Dual watch (DW)
- ANL for AM • Up/down scan
- Channel switching with large rotary knob and push buttons on the microphone ▸ Quick channel up/ down
- Priority channels 9/19 and a switchable keyboard tone
- High (4 W) and Low (0.5-1 W) power in FM selectable
- Sockets for ext. headphones, 6 pin microphone, ext. s-meter and ext. speaker.

CB mobil SSB radio

> ALBRECHT AE 5800

A mobile radio with 40 SSB/USB/LSB channels and 40 AM and 40 FM channels. With its blue illuminated display and its rotary knobs the AE 5800 is a real treat. The rubber coated rotary knobs, a clear display and the high level of equipment add to the high handling comfort. Radio amateurs with license are allowed to change their radio to 10 m and 25 W maximum.

▶ **AE 5800** Ord.-No.: 12900

Specifications
▸ Up-/down-microphone (channel selection can as well be done with rotary knob) ▸ scan-funktion, up-/down-scan ▸ RF- and Mic-gain ▸ memo-scan ▸ dual watch ▸ channel memo ▸ 6-pin mic socket and external speaker socket ▸ Transmission power is adjustable and you have the choice of 5 memories at your disposal.

The AE 5800 can be used in the following countries:
B, CH, E, FL, I, RSM – licence required
D, F, FIN, GR, LV, NL, PL, P – free for use without licence or fees

CB portable radio

> ALBRECHT AE 6890

ALBRECHT AE 6890 . . .
. . . no more space to install a CB in your car? Here come the solution :
AE 6890 with remote front panel can be installed at any place on the dashboard of your car for safe and easy control.

You can glue or screw the remote on the small bracket, the cable to the main unit is 2 meter. Beside this unique function the AE 6890 is a full featured top class CB radio

Tone squelch (pilot tone or CTCSS) is a new function in CB radio communication.
So you can build an own group with your friends and colleagues and everybody in this group can listen to the other ones.
With activated TSQ the normal squelch is not activated. The radio has the ability to decode the CTCSS codes always in the best sensitivity and does not react to any noises or external signal without CTCSS.

The AE 6890 can be used in the following countries:

- 80 channels FM (4 W)/40 channels AM (1 W): D (CZ and SK only FM)
- 40 channels FM (4 W)/40 channels AM (1 W): B, BG, CH, D, E, EST, F, FIN, FL, GR, I, IRL, LV, NL, P, PL, RO, RSM
- 40 channels FM (4 W): all EU countries (- A) + CH, FL, N, IS
- 40 channels AM (4 W) /FM 4 (W): E, PL
- 40 channels FM (4 W): Frequencies for UK

Optional Accessories

Microphone extension, 2 m, 6-pin
▶ Ord.-No.: 7625

Front panel cable extension, 2,5 m
▶ Ord.-No.: 5820

We afford you 3 years manufacturer's warranty for the AE 6890.

▶ **AE 6890** Ord.-No.: 12689

Specifications

- 5 Country switching by software operation
- Remote cable length about 2 meter
- Automatic Squelch ASQ and manual squelch SQ
- Graphic LCD display for channel, S- and power meter, frequency and status icons
- Audio tone filter (TON) ► Microphone preamplifier (MIC)
- RF gain switch for local/DX operation (LOC)
- External s-meter socket (2.5 mm) ► Flash memory for last settings
- Die cast back panel with heat sink (for longer QSOs)
- AM-FM switch ► Special channel (PRI), 3 memory channels
- Scan functions for all channels (SC) or special channel dual watch (DW)
- Channel 9 direct key ► Key tones and Roger beep selectable
- Automatic squelch ASQ and manual squelch SQ
- Channel / frequency display selectable
- Flash-EEPROM memory for last setting

> ALBRECHT AE 5090 XL

AE 5090 XL mobil CB Transceiver with 5 country settings! Outside EU and R&TTE extendable to 240 channels, max. 10 W. Clear and well arranged front panel, as well as excellent display. It is easy to use with rugged controls and large keys. This fantastic mobile cb-radio is the perfect companion for the frequent traveller, who won´t go for second-best. Microprocessor driven with highly sensitive RX, this mobile cb-radio can also be used at home.

The AE 5090 XL can be used in the following countries:

- 80 channels FM/80 channels AM: D (CZ And SK only FM) channels 41 - 80 AM only receiving
- 40 channels FM/40 channels AM: B, BG, CH, D, E, EST, F, FIN, FL, GR, I, IRL, LV, PL, P, RO, RSM
- 40 channels FM/40 channels AM (4 W): PL
- 40 channels FM/40 channels AM (4 W): E
- 40 channels FM CEPT: all EU countries (- A) + CH, H, N, IS

Specifications

► Displayfarbe selectable: red or blue ► Displaycolor double-stage (dimmer) ► ASC Noise Suppression (patent by GPE) now adjustable, separate from squelch settings! ► RF- and Mic Gain ► Channel memory by EEPROM ► Scan Functions ► DW (Dual Watch)

▶ **AE 5090 XL** Ord.-No.: 12295

► Dimmer ► Channel selection by rotary knob and up-/down buttons at microphone ► Up-/Down-Scan ► Memo Scan ► 5 programmable memory channels, separately for AM and FM ► Multifunction LC display with S-Meter, Modulation-/Power-Meter, status- and channel display ► 6-pin Mic connector - usable for up/down mics or Packet radio modems ► External S-Meter socket ► Up-/Down-Scan ► Memo scan external speaker socket ► Detachable DC power cable

CB portable radio incl. CTCSS

> ALBRECHT AE 6690

Tone squelch (pilot tone or CTCSS) is a new function in CB radio communication.
This tone squelch replaces the conventional squelch, which reacts on a weaker noise or an increasing field strength. Instead there is an inaudible deep tone in every transmission. This tone will be interpreted by the partner station if this station also is equipped with this function.
The loudspeaker will only turn on, if the device "hear" this tone.
So you can build an own group with your friends and colleagues and everybody in this group can listen to the other ones.
With activated TSQ the normal squelch is not activated. The radio has the ability to decode the CTCSS codes always in the best sensitivity and does not react to any noises or external signal without CTCSS.

- Theoretically there are 48 user groups on each channel possible.
- The first 38 tones are internationally standardised, the codes from 39 to 48 are additionally possible with other AE 6690 at the distant partner stations only.

CTCSS codes are often also described as Sub Channels or Pilot Tone system. This function is also ideal for CB gateways!

We afford you 3 years manufacturer's warranty for the AE 6890.

▶ **AE 6690** Ord.-No.: 12669

3 Display-Color options
- Blue backlight ▸ Red backlight
- Blue backlight in RX mode and red backlight in TX mode

Specifications

- Special channel (SCH), 3 memory channels
- Scan functions for all channels (SC) or special channel dual watch (SW)
- Channel 9 direct key
- Key tones and Roger beep selectable
- Time-out-Timer for transmission limitation
- Automatic Squelch ASQ and manual squelch SQ
- Channel / frequency display selectable
- Flash-EEPROM memory for last setting
- Outside EU and R&TTE extendable to 240 channels

CB mobile radio

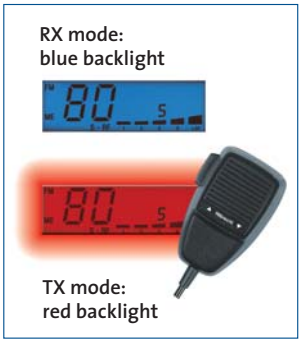
> ALBRECHT AE 5290 XL

Our popular CB AE 5290 comes completely new as the XL version. New backlight, new black front panel and more country versions (5).

The AE 5290 XL can be used in the following countries:
- 80 channels FM/80 channels AM: D (CZ and SK only FM) channels 41 - 80 AM only receiving
- 40 channels FM/40 channels AM: B, BG, CH, D, E, EST, F, FIN, FL, GR, I, IRL, LV, PL, P, RO, RSM
- 40 channels FM/40 channels AM (4 W): PL
- 40 channels FM/40 channels AM (4 W): E
- 40 channels FM CEPT: all EU countries (- A) + CH, H, N, IS

Specifications
- Outside EU and R&TTE extendable to 240 channels, max. 10 W
- Channel selection by rotary knob and up/down buttons at microphone
- 5 programmable memory channels
- memo scan ▸ LC display with s-meter
- power-meter ▸ status- and channel display
- 6 pin mic connector ▸ external s-meter and speaker socket
- Detachable DC power cable ▸ Dimensions: L: 14, D: 19, H: 4 cm
- Weight: 830 g

▶ **AE 5290** Ord.-No.: 12590



3 Display-Color options
- Blue backlight ▸ Red backlight
- Blue backlight in RX mode and red backlight in TX mode

CB mobile radio

> ALBRECHT AE 6490/AE 6491

ALBRECHT AE 6490 . . .
A Europe CB Radio with front speaker and DIN-size mobile mounting bracket.

The latest generation of CB transceivers with wide angle LCD guarantees legibility from every perspective. The three watt front speaker provides a clear sound.

Specification:

- Country switching by software operation
- 80 channels FM (4 W): dE for D, CZ, SK
  40 channels AM (1 W): dE for D
- 40 channels FM (4 W)
  40 channels AM (1 W): EU for B, BG, CH, D, E, EST, F, FIN, FL, I, IR, LV, NL, P, PL, RO
- 40 channels FM (4 W): EC for all EU countries + CH, FL, N, IS, except A
- 40 channels FM/AM (4 W) E for Spain and Italy
- 40 channels FM/AM (4 W) Po for Poland
- 40 FM (4 W) channels U for UK

- Wide angle graphic LCD display for channel, S- and power meter, frequency and status icons
- AM-FM switch
- 6 pin microphone socket on the front panel
- 5 memory channels
- Scan functions for memory channels
- Channel 9/19 direct key
- Key tones and Roger beep selectable
- Automatic squelch ASQ and manual squelch SQ
- Channel/frequency displayed simultaneously
- Channel selection with rotary switch
- Electret microphone with up/down/ASQ buttons
- 50 Ohms antenna PL connector
- External speaker socket (3.5 mm)
- Flash-EEPROM memory for last setting
- 2 colors selectable for LCD backlighting
- Dimmer for LCD backlighting
- Front speaker

▶ **AE 6490** Ord.-No.: 12649

▶ **AE 6491** with automatic voltage transformer for 12 and 24 Volt

Ord.-No.: 12648

CB mobile radio

> ALBRECHT AE 6190 HD-X

This Albrecht CB Radio AE 6190 HD-X, developed and manufactured in accordance with the latest CB regulations, offers you:

The AE 6190 HD-X can be used in the following countries:

- 80 channels FM (4 W)/40 channels AM (1 W): D (CZ and SK only FM)
- 40 channels FM (4 W)/40 channels AM (1 W): EU
- 40 channels FM (4 W): Factory setting for Austria EC (on inquires)
- 40 channels FM (4 W)/AM (4 W), - 5 kHz: for Poland
- 40 channels FM (4 W)/AM (4 W): for Spain

Specifications

- Channel selection UP/Down buttons on the radio and at the microphone
- Channel scan button at radio
- Direct channel switching to CH 9 at radio
- LC display for channels and status
- 6-pin standard microphone socket, suitable also for amplifier microphones, selective calling systems or Packet Radio modems/TNC's
- Socket for external loudspeaker

Your AE 6190 HD comes with the following accessories:

- Mobile mount
- Fixed connected DC power cable with looped-in fuse
- Electret hand-held microphone with pre-amplifier and up/down buttons
- Microphone hanger
- Various screws to fasten the radio and microphone fixing devices
- User manual with Radio Passport

▶ **AE 6190 HD-X** Ord.-No.: 12619

New HD-X version:

- **Flash memory for last settings**
- **5 country switching**
- **Illumination by LED**
- **Top AM modulation**

We afford you 3 years manufacturer's warranty for the AE 6190 HD.

3 years warranty!

CB mobile radio

> ALBRECHT AE 4200 R

Our well known AE 4200 in a reduced version with red LED display and without CH 9/19 or scan function. A CB-Radio for all, simple to use. The large display is easy-to-read. The radio provides, separate volume and on/off power switch and fine adjustable squelch control. TX/RX and FM indicator, 4-pin mic socket at the front, speaker socket at the back.

The AE 4200 R can be used in the following countries:

- 80 FM/40 AM channels: D, CZ, SK (only FM)
- 40 FM/40 AM channels: B, BG, CH, D, E, EST, F, FIN, FL, GR, I, IRL, NL, LV, PL, P, RO, RSM
- 40 FM channels: All EU-Countries and CH, FL, N, IS (except Austria)

► **AE 4200 R** Ord.-No.: 12010

Specifications

- Large display
- Emergency channel 9 switch
- Channel memory
- Microphone
- Dimensions: 130 x 35 x 170 mm
- Weight: 700 g

CB/SSB Portable Transceiver

> ALBRECHT AE 2990 AFS

NEW!

► Ord.-No.: 10190

Features:

- Germany: 80 channel FM (4 W); 40 channel AM 1 W and SSB 4 W
- EU: 40 channel AM 1 W; 40 channel FM/SSB 4 W
- E: 40 channel AM/FM/SSB 4 W
- PL: 40 channel AM/FM/SSB 4 W "o" Raster
- UK: U1 - 1 to 40; U2 - 1 to 40
- Selectable Hi/LOW Power: Low power output mode will give the user significantly longer battery life.
- CH 9/19
- Lock: The Lock feature allows the user to "LOCK" all of the button
- SQ setting: Adjusts the squelch setting (memorized with bar graph)
- RF-Gain: Allows optimizing the incoming signal
- Battery Case: Slide on battery case, which contain 9 "AA" batteries (not included)
- CB approved according to the European norm EN 300 433-2 and EN 300 135-2
- Ham radio version will be available (AM/FM/SSB 4W)
- Dimensions: L: 40 cm (excl. antenna 18,4 cm), W: 6,5 cm, D: 3,2 cm
- Weight: 300 g

Optional accessories

Mobile set

Mobile set for in-care use. Connecting cable with BNC plug and a power adapter with cigarette lighter plug, ► Ord.-no.: 10109

Desktop charger

Automatic desktop charger (3 different charging modes selectable), ► Ord.-no.: 10106

Plug in charger

► Ord.-no.: 10104

12 V Cig. lighter cable

Power supply cable with 2 A fuse and control LED, lengt: 2,30 m.
► Ord.-no.: 7575

24 V Cig. lighter cable

1200 mAh/DC/DC converter, 12/24 V.
► Ord.-no.: 73750

Empty battery pack

For 9 AA NiCd bateries with combined jack for power supply and charging function. ► Ord.-no.: 10103

DIN size mobile mounting bracket

DIN size mobile mounting bracket.
Fits into most car radio installation slot.

For AE 5090, AE 5800, AE 485 W
► Ord.-No.: 75440

► For AE 5290
Ord.-No.: 75450, black
Ord.-No.: 75451, silver

For AE 4200 MC
► Ord.-No.: 75480

CL 27 BNC

High flexible BNC fiberglass antenna e.g. for AE 2290 AFS, MIDLAND 42 Multi with very good transmitting/ reception results. Power rating max. 50 W, length 54 cm.

► Ord.-No.: 6577

NEW!

TNC connection
► Ord.-No.: 6578

Slip-on rubber antenna

Flexible slip-on rubber antenna, useful for all handheld CB´s with telescopic antennas like AE 2100 with a diameter of 10 mm, frequency range: 27 MHz, length: 25 cm.

► Ord.-No.: 6580

Cig.-lighter plug

Cigarette lighter plug, simple type.

► Ord.-No.: 7570

DC statik converter MW 292

Car charger cable, 12/24 Volt

► Ord.-No.: 73751

Fuse holder

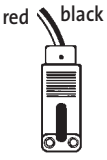
Fuse holder with app. 50 cm cable and 2 A US/ Japan-fuse.

► Ord.-No.: 5810

DC cable

For AE 5800 and AE 485 W

► Ord.-No.: 58195



NC B 302
oval 2- pin

► Ord.-No.: 5812

NC B 303
3- pin, with 2 cables e.g. AE 5090

► Ord.-No.: 5813

3-pin power cable for CB-transceivers e.g. older AE 5290 and others

► Ord.-No.: 5815

Ham Radio

A short abstract of history.
Amateur radio ("Ham Radio") is an officially allocated radio communications service, open (almost) worldwide to amateur radio enthusiasts if they have taken an appropriate examination and have obtained an amateur radio licence from their telecommunications authority. The amateur radio examination is necessary because it even gives them the right to build their radio sets by themselves or to modify purchased equipment for their own purposes without the equipment itself needs to be „approved". Restrictions for industrially produced sets occur only from the EMC and R&TTE directive of the EU (ready-made sets must show a certain minimum of EMC-safety in accordance with EN-Standards), for the other technical parameters such as compliance with permitted amateur radio frequency ranges and transmitting power each radio amateur is himself responsible. Certainly there are also EU countries which require restricted frequency ranges on VHF/UHF on amateur radio sets for sale in the trade such as Austria, France and Spain. Even if many amateur radio sets have a wider frequency in Germany, radio amateurs are only allowed to operate on the frequencies made available to them, apart from possibly in specific emergency situations. Amateur radio sets must definitely not be used for other purposes even if this were technically possible.

The licence class 3 (Germany only)
Albrecht has taken the latest development into account and offers VHF radio sets in a version totally suitable for the new licence class 3. Therefore, all sets have at least one power switch position where an output below 10 watts is possible.

Albrecht SSB-Radios
10 m SSB-amateur transceivers manufactured by Albrecht are an ideal, economical alternative for the interesting 10 m band.

Information obtainable from
DARC Deutscher Amateur-Radio-Club e.V.
Lindenallee 6
34225 Baunatal
Fax: 0561 9 49 88-61
e-mail address: info@darc.de
From DARC you can also find out about the licence class 3 and obtain the forms for the licence examination.

Ham Radio transceiver

> ALBRECHT AE 540 N

Extremely small, amateur mobile radio unit. Best for use in locations with restrained space. With top power (max. 30 watts) and 10 memory locations. The S- and PWR-meter can be read on its clearly laid out display. The channel spacing is programmable in all worldwide used steps from 5 - 25 kHz. The repeater shift is programmable up to 15.995 MHz. For countries where the frequency range has to be restricted, program bridges, that can be soldered, are provided. The AE 540 comes with DTMF-Microphone.

▶ **AE 540 N** Ord.-No.: 35400

Optional Accessories

CTCSS board for AE 540 N ▶ Ord.-No.: 35410

DTMF board for AE 540 N necessarily for DTMF use.
▶ Ord.-No.: 35420

DTMF Microphon ▶ Ord.-No.: 41797

Specifications:
- Frequency range: 136 - 174 MHz FM (restriction possible: 144 - 146 and 144 - 148 MHz)
- Max. peak deviation: +/- 4 kHz
- Tone call deviation: max. 2,8 kHz
- RX sensitivity: 0,2 µV bei 12 dB SINAD
- RF-Output power: 25 W (Hi), 10 W (Lo)
- Antenna socket: UHF (PL-Type) 50 Ohm
- Power supply: 13,8 V +10 %/ - 20%
- Dimensions(D x H x W): 130 x 25 x 125 mm (incl. radiator box)
- Weight: ca. 800 g

Ham Radio transceiver

> Ultra Force

Specifications
- Microprocessor controlled
- Full 10 meter coverage
- AM/FM/USB/LSB/CW
- 30 watts PEP - variable RF power
- 1 kHz/10 kHz/100 kHz selectable frequency resolution
- 5 memory channels
- SWR meter

Controls and specifications
- Microphone gain/RF gain control
- SWR calibrate/RF output power control
- TURBO digital echo volume/delay control
- Clarifier/all mode talk back control frequency control
- Roger beep with on/off control
- S/RF meter with night illumination
- 5 memory channels
- 2 step dimmer control
- 1 kHz/10 kHz/ 100 kHz step control
- Call frequency control
- 2 speed frequency scanning control
- Last channel recall-frequency and mode
- Liquid crystal display (LCD) with night illumination
- Power microphone with up/down frequency controls

On rear panel: Extra large, heavy duty aluminum heatsink.
External speaker socket ▶ CW-key socket ▶ DC power socket

▶ **Ultra Force** Ord.-No.: 35500

Ham mobile radio

> ALBRECHT AE 485 S

A 10 m mobile radio with a continuous frequency range of 28.000 - 29.699 MHz (extendable to 25.165 - 29.695 MHz). Features: 5 programmable memories, repeater shift, memory scan and dual watch. The AE 485 S has a continuous adjustable transmitting power of up to 25 W.

For Thomas Kamp from Cologne it´s been "love on first sight". He defines the AE 485 S in the CQDL as a "fun pack for mobile and holidays" and says: " To the further credit points count excellent usability, moderate size of the control elements, scan, well readable LC-display, good modulation, microphone with up/down-buttons and tone call." Furthermore, he outlined the comprehensible manual, the price, as well as the fun reaching stations based in South and Eastern Europe, Israel, South Africa and Brazil.

► **AE 485 S** Ord.-No.: 35511

Specifications:

► Modes:	A3E, F3E, J3E (USB, LSB)
► Supply voltage:	10.8-15.6 V DC
► Spurious:	min. 65 dB
► RX sensitivity:	0,5 µV EMK FM/SSB 0,9 µV EMK AM bei 12 dB SINAD
► Adjacent channel receiver selectivity:	60 dB FM/AM 70 dB SSB
► NF-output power:	2,5 W an 8 Ohm
► Transmitting power:	max 6 W AM, 25 W FM, 25 W SSB

Ham Radio Handheld

Dual-Band Ham Radio

> ALBRECHT DB 271

New Model with accessory sockets for the ALBRECHT/MIDLAND Standard Duo-plug (2.5 mm for microphone/3.5 mm for speakers with 10 mm gap between the sockets).

Dual-Band, Dual-Display, Dual-Frequency and Dual-standby
A/B key : switch Band A or Band B
TDR key: switch dual or single band
Digital FM radio function
Automatic tuning and storing (20 max.) also with frequency display.
You can select from 76 - 108MHz, almost covers the world radio stations.

Specifications

- Dual Frequency, Dual Display and Dual Standby
- VHF&UHF, UHF&UHF or VHF&VHF working modes
- Frequency Range: 136 - 174MHz, 400 - 470MHz, 136 - 174MHz, 245MHz, 136 - 174MHz, 450 - 520MHz
- Bright flashlight illumination function ► Voice prompt (Chinese/English)
- 128 memory channels ► VOX function ► High/low power selection
- Digital FM radio (automatic tuning and storing, radio frequency display)
- Low-voltage voice prompt ► Wide/narrow bandwidth selection (25KHz/12.5KHz)
- Channel name edit and display ► 105 groups DCS/50 groups CTCSS
- Stopwatch function ► Busy channel lockout ► Transmit over timer
- Step (5K/6.25K/10K/12.5K/25K/50K/100K ► Multiple scan modes
- Keyboard lock (Auto/Manual) ► Wire clone function
- Programmable by computer
- Dimension W/H/D: 58 x 105 x 38 (mm) ► Weight 250 g

► **DB 270** Ord.-No.: 35271

Optional Accessories:

- USB programming cable, Ord.-No.: 35280
- 12 V car cable for charger DB 270, Ord.-No.: 7571
- Batteriepack 1700 mAh, Ord.-No.: 35278
- 12 Volt adapter, Ord.-No.: 35279
- Empty batteriepack, Ord.-No.: 35274
- Leatherbag, Ord.-No.: 35277

Ham Radio accessories

MGA 108 - 550

1/4 wave antenna whip made out of stainless steel. Comes with stainless steel spring. Supplied with cutting chart for frequency setting. To be mounted on a DV base.

SWR:	<1,2
Frequency:	108 - 550 MHz
Bandwidth at V.S.W.R. 2:1:	16 MHz at 140 MHz
V.S.W.R. at res freq.:	< 1,4:1 at 140 MHz
Max Power:	100 W
Height (approx.):	670 mm

► Ord.-No.: 6239

Dualband antenna

140 - 150 MHz/430 - 440 MHz, Length 53 cm

► Ord.-No.: 62381

Miniscan

Minimagnet mount scanner, Ham radio antenna. Comes with 2,7 m RG 174 cable with BNC plug.

Frequency range: 0,5 - 2060 MHz (receipt/RX), 145 - 435 MHz (send/TX)
Powerrat: max 50/25 W
Length: 32 cm

► Ord.-No.: 6158

SMA 47/135 Dual Band

5/8 wave open coil whip made out of stainless steel. Supplied with cutting chart for frequency setting. To be mounted on a DV base.

Gewinn/Gain:	1,5 dB
SWR:	<1,2
Frequency:	135 - 175 MHz turnable 46.5 - 61.5 MHz
V.S.W.R. at res freq.:	< 1,2:1 at 140 MHz
Max Power:	100 W
Height (approx.):	1505 mm

► Ord.-No.: 6237

MGA 108 - 550 DV-S

1/4 wave antenna whip made out of stainless steel. Comes with stainless steel spring. Supplied with cutting chart for frequency setting. Incl. DV-S mount and 5 m cable.

Frequency:	108-550 MHZ
Typ:	1/4 Lambda
Max. Power:	100 W
Antenna whip (cm):	70,5cm
Antenna whip:	Stainless steel
Specials:	Stainless steel spring

► Ord.-No.: 6245

DV-S antenna mount

DV-S-antenna mount, flat type.
Installation hole 13 mm.

► Ord.-No.: 67800

DMC 2

High quality dynamic microphone with 4 pin connector for use with various transceivers.

Wiring:

1. Audio/AF	3. PTT RX
2. Ground/GND	4. PTT TX

► Ord.-No.: 41991

Densei EC 2002

High quality echo microphone.

Impedance:	3000 Ohm
Sensitivity:	-62±3 dB
Frequency response:	150 Hz - 3500 Hz
Weight:	225 g
Dimensions:	100 x 68 mm
Microphon:	Omni-directional electret condenser
Power supply:	9 V Batterie

► Ord.-No.: 4215

Replacement microphones

Replacement microphone with electret capsule and 4 pin connector for e.g. AE 4200R

► Ord.-No.: 41982

Replacement microphone for AE 4200 MC with CH 9/19 and scan button and 6 pin connector.

► Ord.-No.: 41976

DMC 520 -6/-4

DMC 520-6
High quality dynamic microphone in a classical design complete with 6 pin microphone plug as per ALBRECHT/GDCH standard.

► Ord.-No.: 41966

DMC 520-4
Same as above but with 4 pin microphone plug (AE 4200 as well).

► Ord.-No.: 41964

DMC 520 U/D
Same as 41966, but with up/down buttons for channel selection.

► Ord.-No.: 41965

AE 4197

Original electret replacement microphone with Up/Down channel exchange controls for use with ALBRECHT transceivers, comes with 6 pin microphone plug.

► Ord.-No.: 4197

ALBRECHT SM 500 speaker mike

Speaker microphone
This lightweight, mini sized microphone designed for light duty applications. Each unit features a powerful speaker as well as a high quality condenser-style microphone element that produces excellent transmitted audio clarity. A 360 degree revolving stainless clip on the back of the microphone can be secured to the user´s lapel or shoulder. This unit is made to meet IP-54. Connector: 2.5/3.5 mm

► Ord.-No.: 41750

ALBRECHT SM 400 speaker mike

A loudspeaker microphone with clip and helix cable.

► Ord.-No.: 41780

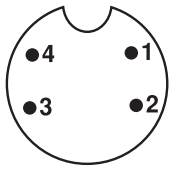
Solder-side 4 pin microphone connector



1 = Mic
2 = Ground
3 = RX
4 = TX

Cable extension

Microphone cable extension
ca. 2 m, 6-pin

► Ord.-No.: 7625

Front section cable extension
ca. 2,5 m for AE 6890

► Ord.-No.: 5820

Microphone mounting plate

Screw type

► Ord.-No.: 7560

Magnetic and screw type

► Ord.-No.: 7550

Speaker

CB 20/905

High quality extension speaker with switchable noise filter and mute function. Very good voice reproduction. Incl. mounting set and cable with 3.5 mm plug.

frequency range: 250 - 8000 Hz
Impedance: 8 Ohm
power: 7 W

► Ord.-No.: 7120

CB-250

Solid extension speaker complete with mounting set, cable and 3.5 mm plug. The big sized speaker cone enables a high efficiency together with clear voice reproduction.

Frequency range: 200 - 7000 Hz
Impedance: 8 Ohm
Power rating: 7 W

► Ord.-No.: 7117

CB 150

Softline extension speaker complete with mounting accessories, cable and 3.5 mm plug. Due to its mylar cone the speaker can be also be used in humid area.

Frequency range: 300 - 7000 Hz
Impedance: 8 Ohm
Power rating: 5 W

► Ord.-No.: 71150

CB 45

Extension speaker in classical design, complete with mount, cable and 3.5 mm plug.

Frequency range: 300 - 7000 Hz
Impedance: 8 Ohm
Power rating: 5 W

► Ord.-No.: 7113

CB 12

High efficient mini extension speaker with clear voice reproduction. Due to mylar cone this speaker can be used in areas with high humidity. Incl. mounting accessories, cable and 3.5 mm plug.

Frequency range: 300 - 7000 Hz
Impedance: 8 Ohm
Power rating: 5 W

► Ord.-No.: 7112

Specifications

Power supplies

SW 35

Switching power supply for CB and other use.

Power input: 220 - 230 V/50 Hz
Output voltage: 13,8 V
Output current: max. 3 - 5 A

► Ord.-No.: 47500

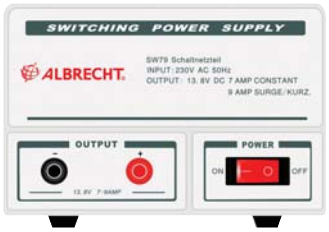
SW 57

Switching power supplies for CB and others. Short circuit protection.

Power input: 220 - 230 V/50 Hz
Output voltage: 13,8 V
Output current: max. 5 - 7 A

► Ord.-No.: 47510

SW 79

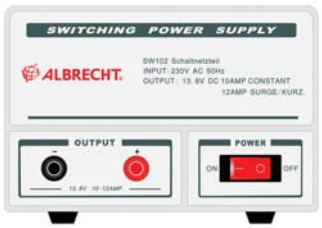


Switching power supplies for CB and others.

Power input: 220 - 230 V/50 Hz
Output voltage: 13,8 V
Output current: max. 7 - 9 A

► Ord.-No.: 47520

SW 102



Switching power supplies for CB and others.

Power input: 220 - 230 V/50 Hz
Output voltage: 13,8 V
Output current: max. 10 - 12 A

► Ord.-No.: 47530

Inverter

Inverter provide 230 V to your electrical equipment´s anywhere you have 12 or 24 V power available. Ideal for boat, trucks, camping ...

USB INV 150 W 12/24 V

Mobile power for cars, trucks, boats and camping. The inverter provide 230 V to electrical equipments anywhere for 12 or 24 V power available.
Built-in USB port, can charge USB devices (like i-pod, cell phone) via the USB charge port, allowing max. portability of electronic accessories

► Ord.-No.: 47871 = 12 Volt
► Ord.-No.: 47870 = 24 Volt

Specifications:

Output power:	150 W continue
Output power:	300 W peak
Input voltage range:	10 - 15 V DC (12 V Version)
Input voltage range:	20 - 30 V DC (24 V Version)
USB power output:	DC 5 A, 500 mA
Battery low:	LED
battery low shutdown:	under 9,5/19,5 ± V
Cooling:	cooling ribs
Fuse:	15 A x 1 (12 V), 10 A x 1 (24 V)
Dimensions W/H/D:	94 x 69 x 165 mm
Weight:	520 g

Inverter

INV 150 W 12/24 V

Inverter for max. 150 W power, overload control (LED). For single 230 V appliances, like shavers, small TV sets, notebook computers, CD/ DVD player, typical small 230 V appliances with wall adaptors, energy saving lamps.

► Ord.-No.: 47860 = 12 Volt/47861 = 24 Volt

INV 300 S 12/24 V

Inverter for max. 300 W power, overload control (LED), cooling fan. For single 230 V appliances, portable TV sets, small stereo sets, video recorders, electronic tools and soldering devices, hot melting glue tools, lighting, portable coolers or as 230 V board network in smaller campers or boats.

► Ord.-No.: 47862 = 12 Volt/47863 = 24 Volt

INV 600 W 12/24 V

Inverter for max. 600 W power, overload control (LED), cooling fan, optical battery indicator. For all electrical appliances with European 2.5 A flat connector, computers and accessories, smaller electric tools, like saws, standard drilling machines, soldering devices, water pumps, fridge or as 230 V board networks in mobile homes.

► Ord.-No.: 47867 = 12 Volt/47864 = 24 Volt

INV 1200 S 24 V

Inverter for max. 1200 W power, overload control (LED), cooling fan, optical battery indicator, 2 outlets for 230 V. For small and medium size electric tools, 230 V appliances up to power classes of vacuum cleaners, hair dryers, coffee machines, fridge and freezers or as 230 V board network in mobile homes or boats.

► Ord.-No.: 47872 = 12 Volt/47865 = 24 Volt

RC 1000 - remote control for: INV 1200 W, 24 V
► Ord.-No.: 47866

PV 24 S
► Ord.-No.: 47834

These products offer a convenient way to operate mass produced 12Vdc equipment such as cell phones, in car entertainment, professional communication and telematics equipment, refrigerators, televisions etc. from the 24Vdc mobile electrical systems found on diesel engined vehicles and vessels.

A Comprehensive Range
There are 10 products in the range from 3A to 24A in isolated or common earth configurations. They have been optimised for high volume 24Vdc to 12Vdc applications such as on heavy goods vehicles, coaches, buses, construction, forestry and agricultural vehicles, commercial and leisure marine vessels.

Tamper Proof
There are no ventilation holes to permit stray objects, dust or water droplets to enter the case. There are no external fuses to be tampered with. Fuses will only blow if there is a fault so there is no need to make them accessible.

All voltage converters are enclosed in a rugged aluminium extrusion. The low mass Surface Mount Technology components are also less prone to damage from vibration and shock, further increasing the reliability of the units.

3Amp units are excellent for charging mobile phones, while 6A units suit a variety of mobile radio applications.

Galvanically isolated units are suitable for marine applications and come complete with the green tamperproof label for petrochemical applications.

Fast Installation
All the units consume an off load current of less than 15mA, which is probably less than the self discharge current of the vehicle's battery. In most cases this can be ignored, speeding the installation by removing the need to fit a remote switch. All products fit onto a 'Click 'n' Fit mounting clip which is fixed in three points allowing it to be mounted on uneven surfaces. It is easy to fit the clip into awkward places and then simply click the unit into position. A red LED indicates when there is output from the converter. This gives reassurance to the installation engineer and speeds fault finding.

Product benefits at a glance

► **Lifelong warranty**
► High performance
► Low heat emissions
► Dust and waterproof
► Excellent installation possibilities
► Compact, sealed cooling unit

Easy 6 Step Installation Method
1. Find a convenient location away from sun and rain.
2. Using the mounting clip as a template, mark fixing positions.
3. Drill screw holes.
4. Fix bracket using screws provided.
5. Clip voltage converter to mounting bracket.
6.Correctly connect to load.

Typical Applications
Installations of mobile and cellular radio communications equipment, telemetry systems, refrigeration, televisions etc on trucks, buses, forestry and off road vehicles as well as boats and yachts and a variety of industrial applications. For a wider range of input and output voltages, see the DD Series.

Alfatronic converters will built in following yachts

► Princess ► Sunseeker ► Swan ► Cranchi

Specifications

Input voltage range:	17 bis 32 V DC	
Output voltage:	13.6 V DC	
Operation temp.:	-25° C to +80° C	
Operation humidity:	95 % max., non condensing	
Case work:	Aluminium and Polycarbonate. Dust water and impact resistance to IP5-33	
Connections:	Five 6,3 mm push-on flat blade connectors (PV35 -A)	
Power flow display:	Red LED	
Over current protection:	Current sensing circuit	
Overheat protection:	Temperature sensing circuit	
EN standard compliance:	2004/108/EC the general EMC directive 2006/96/EC the automotive directive 93/68/EEC the CE marking directive VIDG5 AES for use on police and fire vehicles	
Certifications:	CE- and e marked, FCC class B	
Voltage (intermittent):	PV 3 S:	3/6 A
	PV 6 S:	6/10 A
	PV 12 S:	12/18 A
	PV 18 S:	18/24 A
	PV 24 S:	24/30 A

ECV 810

Voltage reducer with small dimensions.

Dimensions W/D/H:	120 x 165 x 40 mm
Output max. 15 Min.:	8 A
Continuous:	4 A
Short peak:	10 A
Overload protection:	ja
Dimensions:	175 x 122 x 35 mm
Weight:	80 g

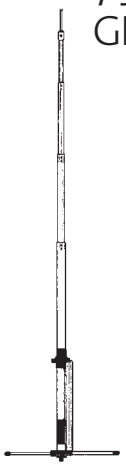
CB-Radio Stationary-Antennas

GPA 27 5/8 and GPA 27 1/2



GP 27 5/8
High quality 5/8 wave stationary antenna made of anti-corroding aluminium to extend the performance and stability. Comes with 3 radials (1 m) and mounting set. SWR tunable.

► Ord.-No.: 63700

GP 27 1/2
Similar to above, but halfwave version without radials.

► Ord.-No.: 6348

Boomerang

1/4 wave stationary-/balcony antenna for mounting on roof or balcony.
The aluminium radiator has a length of 300 cm.
SWR adjustment by tuning tip on short radiator.
Comes with mounting set.
SWR: <1,2

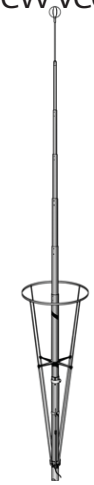
► Ord.-No.: 6350

Mini Boomerang

1/2 wave stationary-/balcony antenna with 2 helical radiators. SWR adjustment by tuning tip. Comes with mounting set.

► Best.-Nr.: 6360

New Vector 4000



3/4 wave stationary antenna, CB and 10 m Base station antenna, omnidirectional, tunable by whip length adjusting, high power handling capability, made of aluminium alloy 6063 T-832, UP-GRADE: Lower radiation angle for the best DX, new tuning possibility

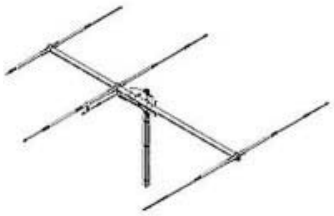
► Ord.-No.:6340

Hurricane/ Storm 27

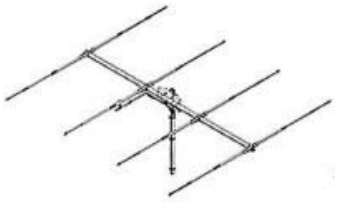
1/2 wave stationary-/balcony antenna that can be installed in any place like attic, balcony and others. SWR adjustment is not required but the connecting cable should have a length correspon-ding to instruction ma-nual. Comes with mounting set.

► Ord.-No.: 63570

AE 27 - 3,3 /AE 27 - 4,4



► AE 27 - 3,3, Ord.-No.: 6343
► AE 27 - 4,4, Ord.-No.:: 6344



Features:
- CB stationary antennas
- Directional, High-gain
- Horizontal polarization
- Factory tuned at mid-band
- High power handling capability
- Elements equipped with waterproof jointing sleeve
- Mounting mast: Ø 35-50 mm
- Dimensions (approx.):
  AE 27-3: 5740 x 2710 x 100 mm
  AE 27-4: 5725 x 4030 x 100 mm

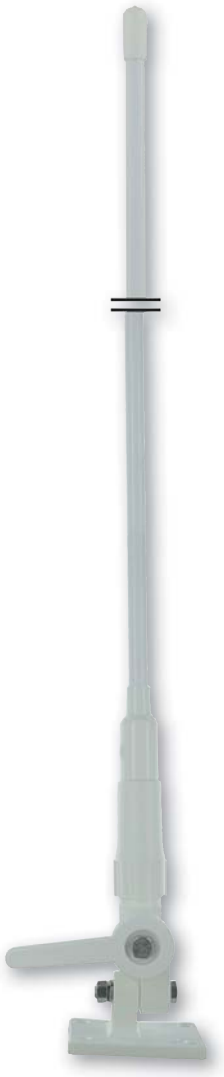
AE Marine Masttop 3200

AE Masttop 3200
Flexible UKW marine radio antenna for sailing boats - ideal for mast mounting. Length ca. 1 m with stainless steel whip. Comes with 18 m cable and 2 x PL 259 connector

► Ord.-No.: 64130



AE Marine 5/AE Marine 8

AE Marine 5
UKW marine radio antenna for motorboats. Ca. 1,6 m fibre glass whip. Antenna mount topple over, white plastic. Comes with ca. 4 m cable and PL 259 connector.

► Ord.-No.: 64100

AE Marine 8
Same like above, but with 2,4 m fibre glass whip.

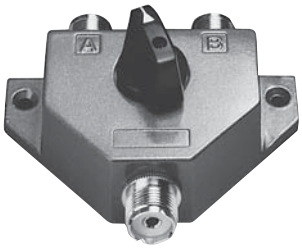
► Ord.-No.: 64120

AE 907 Mastholder

For marine radio antennas, recommended for AE Marine 8 antenna.

► Ord.-No.: 64140

CX 201



CX 201: Solid state 2- way antenna switch in heavy diecast quality. Enables to connect two antennas to one transceiver or the other way round. With PL-connectors.

Frequency range: 1,8 - 470 MHz
Insertion loss: 0,2 dB
Max. power input (depends on frequency): 1000 W

► Ord.-No.: 7401

DV cable

DV-cable
4 m RG 58 U cable with
DV-Right angle connector.

► Ord.-No.: 6831 i

DV-cable
Same as 6831 with additional PL-Plug.

► Ord.-No.: 6833

SWR-Meter

CB-Master SWR 20/30

Compact sized SWR meter for a quick measuring and adjustment of CB-antennas. Model SWR 30 with additional RF-power section for a quick reference of the main CB-data.

Frequency range:	3,5 - 50 MHz (SWR), 26 - 30 MHz (Power)
Power SWR:	1:1 - 1:3
Impedance:	50 Ohm
Deviation:	±/- 5 %
RF output (only SWR 30):	0 - 10 W
Dimensions:	85 x 55 x 30 mm

► Ord.-No.: 4410 - SWR 20
► Ord.-No.: 4412 - SWR 30

Coax cable

High quality Coax cable for hobby or professional use.

RG 58
Diameter 4,95 mm,
Attenuation 10,9 dB/100 m
(50 MHz)

► Ord.-No.: 7460/AL 35

RG 58
Same like Ord.-No. 7460, but white color.
► Ord.-No.: T 200

RG 213
Diameter 10 mm,
Attenuation 4,4 dB/100 m (50 MHz)
► Ord.-No.: 7462

Coax inter-cable

Coax cable
2 x PL-259/6
Length: 50 cm

► Ord.-No.: 7580

Coax inter-cable
Length: 100 cm

► Ord.-No.: 7582

Coax inter-cable
Length: 150 cm

► Ord.-No.: 7581

Coax inter-cable - Ideal for use with balcony antennas.
Length: 10 m

► Ord.-No.: 75820

AKM 27

Artificial ground. Ideal for mounting CB mobile antennas on cars with plastic body like mobile home and so on.
Max. power input: 10 Watt

► Ord.-No.: 68440

Artificial ground: Ideal for mounting CB mobile antennas

Accessories for antennas

DV antenna mount

DV- antenna mount.
Installation hole 11 mm.

► Ord.-No.: 6770

DV-S antenna mount

DV-S-antenna mount, flat type.
Installation hole 13 mm. For use with mobil whip Ord.-Nr.: 6190, 6199, 6206 and 6208.

► Ord.-No.: 67800

NC-570 DV

DV-plug, right angle type

► Ord.-No.: 6800/T 370

DV 27 PL

Antenna mount for antenna with UHF connection and DV connector (e.g. ML145).

► Ord.-No.: 67771

Wing nut

Wing nut and bolt for DV-antennas.

► Ord.-No.: 6820

Anti thief set

Anti thief set for DV antennas with special spanner and key bunch.

► Ord.-No.: 6822

Accessories for antennas

Steel mount

SP-S: INOX steel mount for antennas. INOX steel trunk mount, with a double inclination for mobile antennas. The mount is supplied with a hole fixing reducer and a rubber protection for the car body.

► Ord.-No.: T752

Gutter mount

Gutter mount clamp for mobile antennas. Black anodised.

► Ord.-No.: 6943

Mirror bracket

Universal mirror bracket for trucks. Useable for 3/8“- or DV mounts.

► Ord.-No.: 6814

Alu mirror mount

Universal mirror mount. Accepts 3/8” or DV mounts. For horizontal or vertical mounting. Very heavy duty type made from Aluminium, silver.

► Ord.-No.: 6197

AM 701 Antenna mount

Antenna mount for 3/8“ antennas. Incl. 2,75 m cable

► Ord.-No.: T795

3/8“ adapter for DV-antennas.

► Ord.-No.: 6280

Magnetic mount

BM 150 DV
Magnetic mount for use with DV antennas, black colour. Comes with cable (length 3,90 m), PL-plug and rubber boot. Diameter 15 cm.

► Ord.-No.: 6781

BM 150 PL
Same as above, but with PL (SO 239) antenna connector.

► Ord.-No.: 6782

Replacement rubber boot

► Ord.-No.: 67821

Magnetic mount

BM 125 DV
Very strong magnet mount for use with DV-antennas. Comes with 4 m DV cable and PL connector. Diameter 12,5 cm.

► Ord.-No.: 67840

Window clip mount

Window clip mount for use with antennas with BNC connector. Comes with 2,50 m RG 174/U coaxial cable and mounted BNC plug. Optimum suitable for Ham radio, scanners and CB-transceivers.

► Ord.-No.: 6676

Mini magnet mount

Very strong mini magnet mount (dia. Ø 35 mm!). With BNC female mount for rubber and short telescopic antennas. Comes with a 2,40 m low loss RG 174 cable with mounted BNC male connector.

► Ord.-No.: 6677

HF connectors and adapter

NC 551/PL 259

PL male connector for
RG 213/U/8/U Teflon isolation

► Ord.-No.: T 205

NC 551/2/PL 259/6

PL-male connector for
RG 58/U Teflon isolation

► Ord.-No.: T 377

Twin Blister pack

► Ord.-No.: 50120

NC 572

PL-connector for RG 58/U
short type, Teflon type

► Ord.-No.: T 292

NC 577/2 PL 259

PL-male connector with
right angel output

► Ord.-No.: 5260

SO 239 SH, NC 554

PL-receptacle for single hole
mounting rear mounting

► Ord.-No.: 5040

NC 554

PL-receptacle with 4-hole flange

► Ord.-No.: 5050

NC 553/PL 258

Adapter 2 x PL-female

► Ord.-No.: 5060

NC 565

Double PL-female panel mount

► Ord.-No.: 5310

NC 558/M 359

L-type adapter PL-male -PL-female

► Ord.-No.: 5070

DV-PL Adapter

Adapter PL-connector -
DV-connector

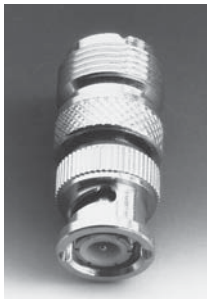
► Ord.-No.: 68027

Dummy L 20

Dummy load with power rating 20 W/ 60
W short term (interval use),
PL-connector, max. 500 MHz, 50 Ohms.

► Ord.-No.: 53030

BNC 1520/UG 255/U



Adapter BNC-male - UHF-female

► Ord.-No.: 5158

BNC 1521/UG 273/U

Adapter PL-male - BNC-female

► Ord.-No.: 5159

SMA/BNC

SMA/BNC female

► Ord.-No.: 58610

for AE 6890 and other with 6 pin mike plug/connector, length: 2 m

► Ord.-No.: 7625

Microphone connectors

Mike chassis plug

Mike chassis plug for single hole mounting

NC 513 3-pin:
► Ord.-No.: 5364

NC 515 4-pin:
► Ord.-No.: 5140

NC 517 5-pin:
► Ord.-No.: 5362

NC 519 6-pin:
► Ord.-No.: 5370

NC 523 8-pin:
► Ord.-No.: 5223

Mike connector

Mike connector with coupling ring

NC 514 4-pin:
► Ord.-No.: 5170

NC 516 5-pin:
► Ord.-No.: 5361

NC 518 6-pin:
► Ord.-No.: 5360

NC 518 Gold 6-pin:
► Ord.-No.: 53605

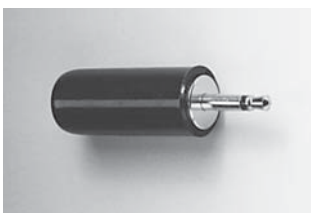
NC 522 8-pin:
► Ord.-No.: 5222

Connector

Plug

Mono-plug 3,5 mm

► Ord.-No.: 5230



> Alan Electronics – The Radio Specialist

We are a leading manufacturer of radio equipment for the professional and private sectors. ALBRECHT Radios are sold for more than 30 years in Germany.

In cooperation with the globally active Italian CTE group we design future-oriented projects, which - thanks to in-house development in Germany and Italy - have been successfully established in the market.

We are globally known with our brands ALBRECHT and MIDLAND. Besides radio equipment for hobby and professional users we distribute consumer electronics such as Bluetooth® headsets, digital radios, action cameras and much more.
